

 IZO™ PRIVATE CONNECTTURN YOUR IP VPN  
INTO A VIP VPN

**IZO™ Private Connect links businesses to cloud services over MPLS or Ethernet through one single provider globally, to ensure network performance.**

Through global agreements with Amazon Web Services, Microsoft Azure, Office 365 and Salesforce, Tata Communications' IZO™ Private Connect simplifies and provides faster on-boarding to the world's leading private cloud providers.

**PREDICTABLE:** Get guaranteed throughput and availability, with Service Level Agreements (SLAs), consistent network performance.

**SIMPLIFIED:** Reduce the complexity of network management with a single global relationship that is fully managed, a single bill, and 24x7x365 customer service.

**SEAMLESS:** Connect to the top public clouds and data centres over our global Tier-1 network – one site to multiple hubs.

**SECURE:** Protect enterprise data while enjoying dedicated network capacity and high speeds.

A leader in global network solutions, Tata Communications is uniquely positioned as the only telecommunications company with presence across six continents, the largest, wholly-owned subsea cable network, and more than 1 million sq. ft. of data centre space in 44 locations worldwide.

## MARKET TRENDS

97% of respondents say their organisation has adopted cloud computing to some extent.

**THE REALITY OF CLOUD COMPUTING - HAS IT LIVED UP TO THE HYPE?— TATA COMMUNICATIONS 2015**

More than 50% of enterprises rates enterprise-grade network services from their cloud providers as very important.
